### Helping to safeguard the well-being of your crop the natural way

Garlic has long been known to have many beneficial properties, safeguarding the well-being of crops and helping to aid recovery from the effects of plant pests and diseases. bubbleRPEL is a truly safe formulation, prepared using a unique extraction process.

- Aids recovery from the effects of pests and diseases
- Prevents plant and crop stress
- Does not effect crop flavour
- Enables plants and crops to be harvested immediately once dry
- Requires no special handling or protective clothing
- Highly systemic via root and foliar absorption
- Non-phytotoxic - no plant/crop scorch
- Simple to use - just add to water
- Biodegradable and environmentally friendly
- Certified for organic farming - Soil Association approved
- Odourless within minutes of application

bubbleRPEL has Soil Association Restricted Certified Input status.
